

# Compatibility report

## Travelstar 32GH, 30GT

### ATA/IDE

Models: DJSA-230  
DJSA-232

---

#### Compatibility\*

The IBM SIT Lab tests Travelstar drives for compatibility with a wide variety of systems, operating systems and BIOS versions. Testing was done to demonstrate compatibility with the following hardware and software. Other combinations of hardware and software may function with this drive, but have not been tested.

**\*It is important to note that the use of Travelstar drives in some notebooks will require reuse of unique hardware (for example — mounting trays, connecting cable, insulating material). If in doubt please consult your notebook manufacturer as this operation may require a qualified technician.**

---

### **Master/slave operation**

---

The DJSA drive family has been tested to the limits of the ATA/ATAPI-4 specification timings to ensure compliance and correct functionality with all other ATA/ATAPI-4 compliant peripherals, in both Master and Slave configuration.

---

### **Drive capacity**

---

Ontrack® Disk Manager v9.52 utility software has been successfully used to allow full drive capacity in systems that will not support drives of this capacity.

---

### **Third party certification**

---

Microsoft Combined Logo/PC99 Compliant Certification  
Combined Logo:

Win 95/Win 98 & Win NT 4.0  
Travelstar 30GT DJSA-230 MID 27071

---

### **Third party testing**

---

The following companies have been testing the  
Travelstar 32GN and 30GT drives for compatibility with  
their products:

AMI  
INTEL  
MICROSOFT  
PHOENIX

More units are currently being shipped to other com-  
panies as they become available.
