

Compatibility report

Travelstar 20GN

ATA/IDE

Models: DJSA-205
DJSA-210
DJSA-220

Compatibility*

The IBM SIT Lab tests Travelstar drives for compatibility with a wide variety of systems, operating systems and BIOS versions. Testing was done to demonstrate compatibility with the following hardware and software. Other combinations of hardware and software may function with this drive, but have not been tested.

***It is important to note that the use of Travelstar drives in some notebooks will require reuse of unique hardware (for example — mounting trays, connecting cable, insulating material). If in doubt please consult your notebook manufacturer as this operation may require a qualified technician.**
